EDUCATION

Florida State University, College of Arts and Sciences   Tallahassee, FL
Bachelor of Science in Computer Science, Minor in Mathematics   Expected Graduation: August 2026
- GPA: 3.98/4.00 | Honors: President's List, Dean's List | Scholarships: Vires Scholarship

EXPERIENCE

Brazilian Student Association   Remote
Software Analyst   August 2025 – Present
- Collaborated within the technology team to design, maintain, and enhance the organization's products, which supports thousands of Brazilian students worldwide through effective communication and adaptability
- Contributed to both frontend and backend development using Django, React, HTML, and CSS, refactoring existing codebases and implementing new features to improve system efficiency and user experience
- Managed and updated the organization's databases, ensuring data integrity, reliability, and accurate information

Brazilian Student Association at FSU   Tallahassee, FL
External Vice-President, Treasurer   May 2024 – Present
- Helped manage the team of executive board members by coordinating responsibilities, supporting event planning efforts, and ensuring alignment with BRASA's goals and initiatives
- Organized cultural and professional events promoting and fostering Brazilian culture among FSU students

PROJECTS

Map Spotify | *React, Vite, Flask, Redis, OAuth, Web APIs*   July 2025
- Built a full-stack Spotify app displaying users' top artists on an interactive global map.
- Integrated Spotify Web API, MusicBrainz, and Nominatim APIs in a Flask backend with OAuth and Redis caching.
- Developed the frontend with React, Vite, Tailwind CSS, and Leaflet.js for dynamic map rendering.

Restaurant Manager Application | *React, Vite, Flask, Flask-SQLAlchemy*   June 2025 – July 2025
- Built a full-stack restaurant management web app with operations for finances, orders, menu, staff, and inventory.
- Developed the frontend with React, Vite, Shadcn/UI, and Axios for smooth user experience and API integration.
- Created RESTful backend APIs using Flask and Flask-SQLAlchemy for database management and data persistence.

Vacation Planner | *Next.js, Tailwind CSS, Flask, Google ADK, CopilotKit*   August 2025 – December 2025
- Collaborated with a team of students to create a full-stack AI-powered vacation planning web application.
- Led the UX/UI design and frontend architecture of the app, focusing on usability and responsive design.
- Integrated Google Gemini via Google ADK and CopilotKit to generate travel suggestions based on user input.

TECHNICAL SKILLS

Technologies: React, Flask, .NET, ASP.NET, .NET MAUI, Tailwind CSS, SQLAlchemy, Django, Next.js
Programming Languages: Python, C++, C#, C, MIPS Assembly, HTML5, CSS, JavaScript, TypeScript, Java
Developer Tools & Environments: Git, Github, Postman, VS Code, Rider, UNIX, Docker

OTHER SKILLS

Languages: Portuguese (Native), English (Fluent), Spanish (Proficient)
